

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Congressman Omar Burleson, in his weekly report back to the people of this district, expects this second session of Congress to be an unusual session that may erupt into almost anything. Because he gives a good rundown on what is ahead for this session in his newsletter we are carrying it in full.

The second session of any Congress is usually opened with less fanfare than the beginning of the First Session. This is due to the fact that the tempo is usually set in the First Session and simply continues at about the same stride.

There is, however, in the second session of the 90th Congress a volatile potential resembling a sleeping volcano. It is bound to erupt, but no one is sure just when and where.

Fiscal affairs will hold the center of the stage. Normally, it would not be a dramatic performance, but we are not in normal times.

At least, there is some encouragement to be taken from the appearance of deep concern on the part of many Members of Congress for our economic well-being. The feeling is too late in coming but the very fact that many recognize that we must put our financial house in order is an improvement in attitude. As to how it is done and the measures used to accomplish it is something else. At the center is the President's call for a partial restoration of the tax decrease voted in 1964.

Present estimates call for a \$20 billion deficit in this fiscal year, ending June 30. Another \$20 billion deficit is expected at the same time in 1969 unless an increase in the surtax is voted to produce approximately \$12 billion. This assumes that spending costs of Vietnam will hold at about the present level.

To meet the threat to the integrity of the dollar in world-wide exchange, the Administration proposes to remove the requirement for 25% backing in gold.

Among the many issues facing the Second Session of the 90th Congress are: In the field of Agriculture the emphasis will be on proposals to establish machinery for farmer's collective bargaining and extending the Poverty Program to rural areas.

Labor legislation is not likely to be of high interest unless crippling strikes occur in key industries such as in steel. Should big strikes occur it is possible that anti-strike legislation may be enacted. Proposals to overhaul the National Labor Relations Board and substitute in its stead a Labor Court will have hearings.

In matters of Education, top priority will be focused on vocational and higher education measures. Attempts will be made to expand health care, particularly for children in families with working mothers. Intense attention is being given to the rising cost of medical and hospital care.

Numerous proposals on Foreign Trade were introduced in the last Session which will carry over to the present one. Efforts will be made to expand our exports and more than 100 industries want greater protection from imports.

For the past three years Consumer Interest has been under continuous study. In this Session issues such as Truth-in-Lending, Pipeline Safety, Fire Safety and other measures may reach the debate stage.

Crime in the streets and Juvenile Delinquency are high in the Nation's concern. Various proposals to meet this challenge will be considered.

On the side of National Security is, of course, the handling of the conflict in Vietnam. Related to it are measures of National Security which cover a vast area.

Matters relating to Natural Resources and Public Works, Transportation and Urban Affairs are many and varied.

All in all, it is a big order to be accomplished before the National Political Conventions.

With only six days left in which to register to vote in the 1968 elections we would like to remind everyone again to get their certificates. We would also remind people over 60 that they must register if they are to vote. No longer can anyone in Texas vote without registering.

TECH BAND TO PRESENT CONCERT — The Texas Tech Stage Band will be here Thursday, Feb. 1, to present a concert in the high school auditorium, sponsored by the Hamlin band. The 22-member traveling group will be making their last stop of a tour through Texas and points in Oklahoma. The group of 20 boys

and two girls will be staying in the homes of stage band members here. The public is invited to attend. Tickets for 75 cents are being sold by all band members. Proceeds from the concert will go into the band activity fund which helps to defray the expenses for band trips and miscellaneous supplies.

The Pipers will be seeking a share of the lead when they close out the first half of district action Friday night at Colorado City. The Piperettes took over the top spot here Tuesday night when they downed Winters 42-32 in their first round action.

The Pipers dropped out of the top when they fell to Anson here Friday night, 72-69, but then were helped out by Stamford as they in turn defeated Anson Tuesday, 68-60. The Pipers own the second place spot now and can share the lead with Colorado City with a victory Friday night.

Tuesday night the Pipers will begin the second go-round

by traveling to Stamford. The Piperettes take the week off as they start their second round against Haskell Feb. 2, undefeated in district action. The Hamlin B Team remains and on top through their first four games.

Milton Davis, Van Covington, and Milbourne Newland sank 25, 19 and 12 points respectively in the losing battle with Anson Friday night. Davis led the Hamlin scoring again Tuesday night against Winters with 16 points. He was followed by Covington and

Charlie Shira with 12 each, and Terry Holt, Newland and Robert Bolden with 10 each.

Five Day Rain Measures 3.18

Rains temporarily halted the cotton harvest here by five days of rain which began early last Thursday. The 3.18 of moisture came near the close of the cotton harvest and at an opportune time to benefit the wheat crop.

It is expected that the cotton is damaged some although, a spokesman for the Hamlin gin said that it is difficult to guess until the cotton is

brought in. The Hamlin Farmers Gin has weighed in 4,063 bales. They had some 300 bales on the yard when the rain started. They expect 500 to 600 more bales to come in before the harvest is completed.

Watts Fletcher, manager of the gin, said that the market was fair. He said there was pretty good demand and the market was improving but still not to the point that was reached before Christmas. Present prices range around 16 to 21 cents.

At the Farmers Coop 2,130 bales have been ginned and from 200 to 300 more bales are expected. The cotton is currently grading 5m lt. spot, according to Bill Scott.

Rainfall as recorded at City Pump Station is as follows: Jan. 18, 1.36; Jan. 19, .32; Jan. 20, .55; Jan. 21, .79; Jan. 22, .05; Jan. 23, .11.

Mothers' March Cancelled Here

Some \$80 was given by Hamlin residents for the March of Dimes during the telethon on KPAR-TV Saturday evening through Sunday morning. Ellis West, Lions Club member, handled the calls and was assisted by Lester Minton, drive chairman, and Larry McGraw in picking up the money.

Plans for the Mother's March were cancelled.

Materials for donations have been distributed to school students.

The street blockade conducted by Hamlin Boy Scouts will be held Saturday morning if the weather permits, says J. O. Murphree, Lions member and chairman of the event.

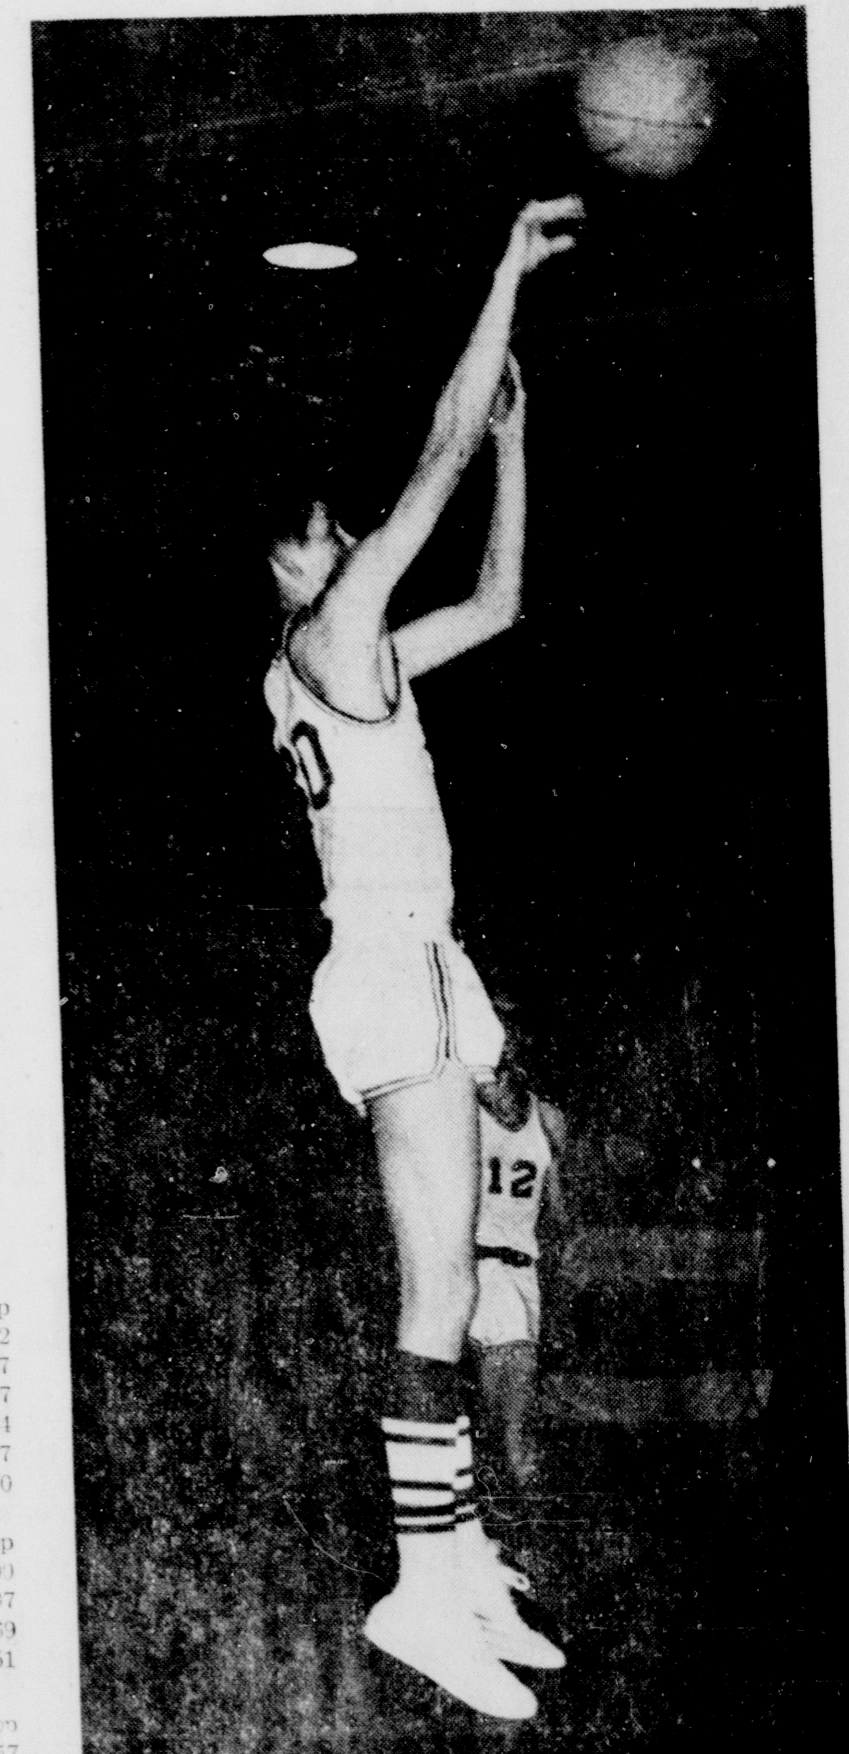

School Closes For Sickness Here Friday

School was dismissed here for one day, last Friday, because of the high percentage of absenteeism. Supt. C. F. Cook said that 22 percent were out of school Thursday. He said 200 students and eight teachers were absent, with measles, flu and colds seeming to be the major causes.

Monday, when classes resumed, 124 students or 13 percent, were absent. Tuesday, only 100 or 10 percent were absent.

He said normal absenteeism was four percent.

Supt. Cook urges all parents to have their children in school unless they are ill because the teachers are hired on Average Daily Attendance and heavy absenteeism can cause a drop in the number of teachers that the school may have.

Mrs. Holly P. Toler Reviews Book for Beta Theta Jan. 17

Beta Theta Chapter of Beta Sigma Phi met in the home of Mrs. David Casey last Wednesday afternoon.

Mrs. Holly P. Toler reviewed "Psycho Cybernetics" by Dr. Maxwell Maltz, a plastic surgeon. Maltz discovered through his practice that if a person's physical characteristics were changed, his self image and therefore his personality, were changed.

This led him to ponder the possibility of changing the self image without changing the features and achieve the same result. Cybernetics was explained by a science discovered by physicists whereby a person can use all the powers locked up in the mind. The author uses the idea that "Each of us has the capacity to become what we want to become" and "As a man thinketh so he grows." He contends that to change the image is to change the personality and behavior. He relates case histories of people who created new self images and changed their personalities.

Dr. Maltz said that ideas are not changed by will but by replacing them with new ideas.

During the business session, with Mrs. Casey presiding, the date for the Valentine social, Feb. 10, was announced. The social will be held in the home of Mr. and Mrs. Billy Joe Wilson.

BEACHED... and forgotten!

This old forgotten boat is almost buried in the reeds. Can this boat in any way be compared to our talents? What of these talents that God has given us? Have they been beached, forgotten, buried?

Heaven expects us to help in this matter of creating a better world where brother helps brother by using to the fullest extent the talents He has bestowed upon us. God always provokes and prods mankind to do good works, and accomplish great things. And He says that if we dedicate ourselves to this matter He will help. But the decision to use our talents and develop them is our choice.

Attend church this Sunday and begin to learn how God would have you use these gifts He has given you.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Motor Vehicle Licenses Go On Sale Here Feb. 1, New Rates Set

Motor vehicle license plates will go on sale here Thursday, Feb. 1, in the office of McCollum - Cunningham Insurance Agency, 134 South Central.

L. J. Cunningham, who is in charge of the vehicle registrations, said that 1980 passenger car tags had been received from Jones County Tax Assessors office and the numbers range from DFH 10 to DEFJ 999. Truck and pickup tags number from IX 6700 to IX 7299. Farm truck numbers are 8J 1300 to 8J 1499.

Some important changes in the registration have been noted by Cunningham, one of these being that there is a minimum fee of \$5.30 for all vehicles, including boat trailers and motorcycles. During the 1967 session the Texas Legislature amended the Texas Registration Law to this effect.

The new rates for passenger cars are as follows: Up to 3,500 lbs., \$12.30; 3,501 to 4,500 lbs., \$22.30; 4,501 to 6,000 lbs., \$30.30; more than 6,000, 55c per 100 lbs.

To obtain a special number, the vehicle owner may take the necessary papers and put the money for the license on deposit and pay \$1.00 holding fee and the number will be saved for them.

Owners should take four items when securing tags: certificate of title, 1967 li-

cense receipt, current resident address, and zip code. State law requires each owner to register his vehicle in the county in which he resides and to present his certificate of title as evidence of ownership.

Cunningham noted that late registrations would be on a quarterly basis instead of the former monthly basis.

Motor vehicle owners can avoid long lines by registering during the month of Feb., rather than waiting until the March rush.

Sylvester News...

By Mrs. R. M. Babb

3.05 inches of rain and still cloudy this Monday morning but not raining at the moment. It has rained since last Thursday morning about 4 a.m. and I mean it is muddy.

Lea Dickerson came home on Friday from Hamlin Hospital and is doing real well. Mrs. Kid 1 is still in Hamlin Hospital but is doing real well. Seems all the flu and bad colds are about to be subdued and I am sure every one as well as myself are very glad. Rev. and Mrs. Leverett report a wonderful time at the Evangelism Conference in Dallas last week.

Seems from all reports that Capt. and Mrs. Jimmy Lanning are fitting in at Ft. Bliss real well but won't be there too much longer. Cadet and Mrs. Lee Lanning are fine in College Station and Linda is working for the newspaper.

Mumps seem to be going around town at this time. We

have several of our youngsters out of school with them.

I remind you again, you had better register so you could vote. We have two of our citizens running for commissioner, Blackie Ford and Chub Hardwick. Bill Owens and Loyce Sutton from over in the West part of the county are running too, so again I say, please register before Jan. 31.

We were all very happy to hear that Winn's store is going to rebuild in Hamlin. We have not only missed the items from the store but the very friendly faces of the manager and sales ladies that greeted you each time you went in. Maybe you don't realize just how much a smile means when you show it to other people. We will be looking for you soon.

Boy, it is raining now, and I don't mean maybe, see you next week.

Rides for youngsters of all ages, many appearing for the first time in this country, will be featured on Fiesta Island at HemisFair'68.

The mini-monorail at HemisFair'68 has a design capacity of 4,200 persons per hour.
